

## GRAFTED TOMATO TRANSPLANTS

[www.bannergreenhouses.com](http://www.bannergreenhouses.com)

## Grafted Tomato Transplants

**Increased rooting \* Increased disease resistance \* Better yields**

Our selected rootstock; TD2 or SURVIVOR is proven to be highly resistant to Fusarium Wilt 1 and 2, Fusarium Crown and Root Rot, Verticillium Wilt, Soil Nematodes, and intermediately resistant to Tomato Mosaic Virus and Bacterial Wilt. If you prefer a different rootstock or scion variety, we would be happy to discuss your needs.
